

POWER Software Support:

I elect not to have hard copies of the software manuals and/or Program News shipped to my dealership(s). Instead, I will utilize the Electronic Documentation Viewer (EDV) application.

I understand the EDV application:

- is available on any PC with the POWER software loaded
- provides online access to the printed version of the software manuals
- allows personnel to access software documentation just as they would the hard copy manuals
- allows multiple users to access EDV software documentation simultaneously
- provides search functions and the ability to mark favorites make EDV a great resource for the dealership personnel

I would like to no longer receive printed copies of:

_____ Software Manuals

_____ Program News

Please list which branches should no longer receive printed copies of software manuals and/or Program News:

Requested by:

(This section requires the signature of the General Manager or Dealer Principal.)

NAME: _____

SIGNATURE: _____

TITLE: _____

DATE: _____

DEALERSHIP NAME: _____

CUSTOMER NUMBER: _____

Please fax the completed form to (937) 485-4039.
